

Short Essay

All applicants to the Greater Tucson Leadership Program are asked to submit, with their program application, a short essay that addresses the importance of community service, the importance of serving in a leadership role in the community or a related topic such as "How Community Leaders Bring Positive Change."

The goal of the essay is to challenge you, as the applicant, to explain your personal leadership style, commitment and dedication as well as your plans to continue to be involved after class graduation. Your essay should be approximately one page or 250 words. *Please submit this essay as a separate document.*
